California Justice Information Services Division
Justice Data & Investigative Services Bureau
Criminal Justice Statistics Center

DISCLAIMER

Oakland Data: Following the publication of the 2023 Crime in California and Homicide in California reports, Oakland Police Department informed DOJ that it had submitted incorrect statistical information to DOJ for certain crime categories for 2023. Oakland Police Department has subsequently submitted revised, corrected data for 2023 to DOJ, which has been applied to all affected 2023 tables and data files and is available online at OpenJustice <https://openjustice.doj.ca.gov/data>. As a result, statewide 2023 counts have been updated to reflect these revisions in Crime in California and Homicide in California, 2025. **However, the printed versions of the 2023 and 2024 crime reports still contain the inaccurate 2023 data for Oakland.** As a result, caution should be used when comparing 2023 numbers in this report with other publications. **Please see Tables 1 through 3, 5 through 15, and 48 for the revised, corrected 2023 crime counts in the 2025 Crime in California report and Table 1 in the 2025 Homicide in California report.**

CRIME

IN CALIFORNIA

2024

The Role of the Criminal Justice Statistics Center is to:

- Collect, analyze, and report statistical data that provide valid measures of crime and the criminal justice process.
- Examine these data on an ongoing basis to better describe crime and the criminal justice system.
- Promote the responsible presentation and use of crime statistics.

CALIFORNIA DEPARTMENT OF JUSTICE
Rob Bonta, Attorney General

Executive Summary

Crime in California

2024

Crime in California 2024 presents an overview of the criminal justice system in California. Current year statistics, provided by California law enforcement agencies (LEAs), are presented for reported crimes, arrests, dispositions of adult felony arrests, adult probation, criminal justice personnel, civilians' complaints against peace officers, domestic violence-related calls for assistance, anti-reproductive rights crimes, law enforcement officers killed or assaulted, and violent crimes against senior citizens. Caution should be used when comparing 2024 crime data to prior years. Not all agencies were able to submit a full year of data for 2024. See "Understanding the Data, Characteristics and Known Limitations" for additional information on Page 4.

Facts for 2024*:

Crime Rates per 100,000 Population

- The violent crime rate decreased 6% in 2024 (from 511 in 2023 to 480.3 in 2024). The 2024 violent crime rate is 10.8% higher than it was in 2019 (433.5 in 2019 compared to 480.3 in 2024) (Table 2).
- The property crime rate decreased 8.4% in 2024 (from 2,272.7 in 2023 to 2,082.7 in 2024). The 2024 property crime rate is 9.1% lower than it was in 2019 (2,290.3 in 2019 compared to 2,082.7 in 2024) (Table 2).
- The homicide rate decreased 10.4% in 2024 (from 4.8 in 2023 to 4.3 in 2024). The 2024 homicide rate is 2.4% higher than it was in 2019 (4.2 in 2019 compared to 4.3 in 2024) (Table 2).
- The aggravated assault rate decreased 6.5% in 2024 (from 345.3 in 2023 to 322.8 in 2024). The 2024 aggravated assault rate is 23.1% higher than it was in 2019 (262.2 in 2019 compared to 322.8 in 2024) (Table 2).
- The motor vehicle theft rate decreased 15.2% in 2024 (from 500.8 in 2023 to 424.6 in 2024). The 2024 motor vehicle theft rate is 20.6% higher than it was in 2019 (352.2 in 2019 compared to 424.6 in 2024) (Table 2).
- The arson rate increased 9.9% in 2024 (from 17.2 in 2023 to 18.9 in 2024). The 2024 arson rate is 8.7% lower than it was in 2019 (20.7 in 2019 compared to 18.9 in 2024) (Table 2).
- The burglary rate decreased 9.1% in 2024 (from 339 in 2023 to 308.2 in 2024). The 2024 burglary rate is 18.8% lower than it was in 2019 (379.4 in 2019 compared to 308.2 in 2024) (Table 2).
- The robbery rate decreased 6.3% in 2024 (from 125.7 in 2023 to 117.8 in 2024). The 2024 robbery rate is 9.6% lower than it was in 2019 (130.3 in 2019 compared to 117.8 in 2024) (Table 2).

*Caution should be used when comparing 2024 crime data to prior years. Not all agencies were able to submit a full year of data for 2024. See Understanding the Data, Characteristics, and Known Limitations for additional information.

¹ Population at risk means those between the ages of 10-69. Please see Appendix 1 on Page 75 for more information.

Arrest Rates per 100,000 Population at Risk¹

- The 2024 total arrest rate of 2,673.8 is 2.4% higher than the 2023 total arrest rate of 2,611.2 (Table 17).
- From 2023 to 2024, the adult total arrest rate increased 2.4% (from 2,897 in 2023 to 2,966.6 in 2024), while the juvenile total arrest rate increased 1.1% (from 793.2 in 2023 to 801.9 in 2024) (Table 17).
- The total felony arrest rate decreased 0.7% in 2024 (from 868.6 in 2023 to 862.4 in 2024), while the misdemeanor arrest rate increased 4% in 2024 (from 1,740.5 in 2023 to 1,809.6 in 2024) (Table 17).
- The total violent offense arrest rate increased 2.9% in 2024 (from 332.1 in 2023 to 341.8 in 2024). The homicide arrest rate decreased 6.5% in 2024 (from 4.6 in 2023 to 4.3 in 2024), while the robbery arrest rate increased 4.8% in 2024 (from 47.9 in 2023 to 50.2 in 2024) (Table 22).
- The total property offense arrest rate decreased 5.1% in 2024 (from 205.4 in 2023 to 195 in 2024). The arson arrest rate increased 8.9% in 2024 (from 5.6 in 2023 to 6.1% in 2024), while the motor vehicle theft arrest rate decreased 16.7% in 2024 (from 43 in 2023 to 35.8 in 2024) (Table 22).
- The total felony drug offense arrest rate decreased 4.5% in 2024 (from 66.1 in 2023 to 63.1 in 2024). Other drugs and marijuana arrest rates decreased 14.8% and 11.8%, respectively, in 2024 (from 2.7 and 1.7 in 2023 to 2.3 and 1.5 in 2024) (Table 22).
- The petty theft arrest rate increased 19% in 2024 (from 72.2 in 2023 to 85.9 in 2024). The misdemeanor drug offense arrest rate increased 7.5% in 2024 (from 433.2 in 2023 to 465.5 in 2024). The drunk in public arrest rate decreased 10.9% in 2024 (from 104.4 in 2023 to 93 in 2024) (Table 27).

Dispositions – Adult Felony Arrests

- In 2024, 59.7% of adult felony arrest dispositions resulted in conviction (Table 37).
- Probation with jail continues to be the most frequent sentence given for adult felony arrest convictions (Table 38A).
- From 2023 to 2024, the percentage of convictions resulting in incarceration in a state institution decreased from 21.8% to 20.3% (Table 40).
- The percentage of violent and drug offense convictions resulting in incarceration in a state institution decreased in 2024 (from 26.1% and 19.7% in 2023 to 25.1% and 16.7% in 2024), while the percentage of drug offense convictions resulting in incarceration in jail increased in 2024 (from 15.5% in 2023 to 18% in 2024) (Table 40).

Adult Probation

- From 2023 to 2024, there was an 8.1% decrease in the number of adults placed on probation and a 5% decrease in the number of adults removed from probation (Table 42).
- From 2023 to 2024, there was a 12% decrease in the number of adults placed on probation for a felony offense, and a 6.5% decrease in the number of adults removed from probation for a felony offense (Table 42).
- From 2023 to 2024, there was a 13.9% increase in the number of adults placed on probation for a misdemeanor offense, and a 3.3% increase in the number of adults removed from probation for a misdemeanor offense (Table 42).

Criminal Justice Full-Time Personnel

- From 2023 to 2024, the total number of full-time criminal justice personnel increased 1.9% (Table 44).
- From 2023 to 2024, the number of prosecution, public defense and probation personnel increased 1.5%, 3.2% and 0.3%, respectively (Table 44).

Civilians' Complaints Against Peace Officers

- The total number of reported civilians' complaints against peace officers decreased from 35,497 in 2023 to 26,326 in 2024 (Table 46).
- The total number of reported criminal complaints increased from 1,269 in 2023 to 1,612 in 2024 (Table 46).

Domestic Violence-Related Calls For Assistance

- From 2023 to 2024, the total number of domestic violence-related calls for assistance increased from 160,357 to 163,024 (Table 48).
- From 2023 to 2024, the total number of domestic violence-related calls for assistance involving a firearm decreased from 1,789 to 1,706 (Table 48).

Law Enforcement Officers Killed or Assaulted

- The total number of law enforcement officers assaulted in the line of duty increased from 12,138 in 2023 to 13,547 in 2024 (Table 49).
- In 2024, one officer was feloniously killed in the line of duty (Table 49).
- From 2023 to 2024, the number of law enforcement officers assaulted with a firearm, other dangerous weapons and knife increased 12.3%, 26.4% and 8.6%, respectively (Table 50).

Violent Crimes

Committed Against Senior Citizens

- From 2023 to 2024, violent crimes committed against senior citizens increased from 16,157 to 17,225 (Table 52).
- From 2023 to 2024, homicides committed against senior citizens decreased from 227 to 181 (Table 52).

Understanding the Data

Characteristics and Known Limitations

In 2016, the Federal Bureau of Investigation’s (FBI) Director informed all state Statistical Analysis Centers that the FBI Uniform Crime Reporting (UCR) program would be transitioning to a National Incident-Based Reporting System (NIBRS)-only data collection by January 1, 2021. The California Department of Justice (DOJ) embarked on a five-year effort to develop and implement a new state repository, the California Incident-Based Reporting System (CIBRS), to house the new FBI statistical reporting format. The CIBRS repository is a combination of the federal NIBRS requirements with additional California-specific data elements. California DOJ began collecting data in CIBRS in 2021. However, not all California LEAs have transitioned.

The 2021-2024 data presented in this 2024 publication are a combination of both the summary and incident-based reporting (IBR) formats. There is an established method for converting IBR data into summary data for comparison and trending purposes. In order to present the most comprehensive and complete picture of crime, the summary and IBR data were combined and are presented in the summary format for this year’s publication.

There are a few details to consider with this combined approach:

1. Definitional differences exist between summary and IBR reporting. In 2013, the FBI changed the crime of “forcible rape” to “rape” for the summary data collection which was implemented in 2014. The definition was expanded to include both male and female victims and reflect the various forms of sexual penetration understood to be rape. The IBR collection has built-in validations that prohibit the reporting of rape offenses where the victim and offenders’ sex is the same. There are footnotes in each table impacted in this publication and both the summary and IBR values are presented.

Summary and IBR number breakdowns for total rapes since the inclusion of IBR reporting are as follows for the crimes and arrest data:

Rape Crimes Reported, 2021-2024
By Type of System Reported

Year	Total	Summary Based	Incident Based
2024	13,874	3,389	10,485
2023	13,723	5,347	8,376
2022	14,346	8,851	5,495
2021	14,435	11,874	2,561

Rape Arrests Reported, 2021-2024
By Type of System Reported

Year	Total	Summary Based	Incident Based
2024	1,954	605	1,349
2023	1,776	818	958
2022	1,890	1,299	591
2021	1,964	1,809	155

2. California has expanded the sex (gender) categories it collects in CIBRS to include: male, female, non-binary, and transgender. The FBI only collects the values of male and female. There are footnotes in each table impacted in this publication and the counts for each new value are reflected where appropriate.

Transgender number breakdowns since their inclusion in IBR reporting are as follows for the arrest data:

IBR Transgender Arrests Reported, 2021-2024

Year	Transgender (Presents Male)	Transgender (Presents Female)
2024	220	465
2023	155	307
2022	68	198
2021	17	49

AGENCY LIMITATIONS FOR 2024

The following agencies did not report the full year of data due to a variety of reasons including but not limited to issues with their Record Management Systems (RMS), unresolved reporting errors, staffing issues, being newly established reporting agencies, or failing to submit data.

Imperial County

- Brawley Police Department (Unable to report January due to system issues.)

Kern County

- Arvin Police Department (Unable to report due to agency resource challenges.)
- Wasco Police Department (New agency beginning June 2024.)

Los Angeles County

- Downey Police Department (Unable to report due to system issues.)

Plumas County

- Plumas Sheriff's Department (Unable to report due to system issues.)

San Diego County

- San Diego Sheriff's Department (Transitioned to a new system and November and December counts are low.)

San Joaquin County

- Lodi Police Department (Due to RMS challenges, began reporting in August.)

Shasta County

- Redding Police Department (Unable to submit December due to agency challenges.)

CRIMES UCR Program

- Crime data from the FBI's UCR Program are available from 1952 to 2024.
- The number of reported homicide, rape, and aggravated assault crimes represents known victims; while for robbery, burglary, larceny-theft, motor vehicle theft, and arson, the number represents known incidents.
- If multiple crimes occur during the same event, only the most serious (based upon a hierarchy) is counted. Arson is the exception.
- LEAs began submitting arson crimes data in 1979; however, 1980 was the first year of complete reporting. Agencies must report as arson only fires determined through investigation to have been willfully or maliciously set. Attempts to burn are included in this offense, but fires of suspicious or unknown origins are not.
- In 2011, the lower limit of felony theft in California was raised from \$400 to \$950. It was not feasible to adjust California DOJ's data collection process to collect the new lower limit of felony larceny-theft, and consequently, it is no longer possible to distinguish felony from misdemeanor larceny-theft. Therefore, it was decided to include total larceny-theft crime in the "property crime" category regardless of value.
- In 2013, the FBI's UCR Program revised the definition of "forcible rape" (the carnal knowledge of a female forcibly and against her will) to "rape," which is now defined as "penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim."

California DOJ implemented this definition change in January 2014. During 2014, agencies were encouraged to report using the new definition, but were allowed to report under the historical definition while transitioning their reporting systems.

- In 2023, the Los Angeles Police Department reported a significant decrease in arson crimes. The reason for the decrease had not yet been received at the time of publishing.
- Oakland Police Department identified some reporting discrepancies in their 2023 statistical data after DOJ released their annual reports. Please use caution when comparing any data with 2023 data. Oakland Police Department's updated data can be found here: <https://www.oaklandca.gov/departments/police>.

ARRESTS UCR Program

- Arrest data from the UCR program are available from 1957 to 2024.
- If a person is arrested for multiple offenses on the same day, MACR selects only the most serious offense based on the severity of possible punishment.
- Felony arrest counts may include some misdemeanor warrants for felony offenses.
- The subjectivity of the classification and labeling process must be considered in analyses of race/ethnic group data.
- The Bakersfield Police Department was unable to provide arrest data for February through December 1995. The Oakland Police Department was unable to provide any arrest data for 1995. Estimates for both agencies were added to the 1995 statewide totals for publication trend tables.
- Beginning in 2004, the population category of "other" for race/ethnic group includes the California Department of Finance's race/ethnic group of "multi-racial."
- In 2011, there were notable changes in California law that affected arrest data. First, the lower limit of felony theft was raised from \$400 to \$950, contributing to the decline in felony theft arrests and the increase in misdemeanor theft

arrests. Second, some misdemeanor marijuana statutes were re-classified as infractions, leading to a significant decline in misdemeanor marijuana arrests.

- In 2014, the definition of rape changed. Refer to the preceding “Crimes” section for a more detailed explanation and to Appendix 2 for a list of included offense codes.
- In November 2014, California voters passed Proposition 47 which reduced numerous “non-violent” offenses from felonies to misdemeanors. Caution should be used when comparing felony and misdemeanor arrest data from the current year to data from prior years.
- In November 2016, California voters passed Proposition 64 which legalized the possession and use of marijuana for individuals 21 years of age and older and reduced the offense degree for a number of marijuana-related offenses. Caution should be used when comparing drug offense arrests from the current year to data from prior years.

DISPOSITIONS OF ADULT FELONY ARRESTS

- Adult felony arrest disposition data (i.e., data related to the final law enforcement or prosecutorial outcome of a felony adult arrest) are extracted annually from California DOJ’s Criminal History System. The data statistically capture the number of adult level final dispositions that occur each year as a result of a felony arrest and are displayed by the year of disposition regardless of the year in which an arrest occurred.
- Disposition data do not reflect the actual number of final dispositions occurring each year. Fluctuations from year to year may not necessarily be the result of actual occurrences in the criminal justice system but may reflect the degree to which reports of dispositions were reported and processed.
- “Final disposition” refers to the last adult-level legal action that is reported prior to the close of the annual file. Final disposition can occur at the law enforcement, prosecutorial, or court level. Intermediate dispositions (diversion programs, suspended proceedings, or subsequent actions) are not included in the data.
- Dispositions that occur at the law enforcement or prosecutorial level involving releases, rejections, or resolutions can be reported in one calendar year file, proceed to adjudication at the court level, and then be reported again in a subsequent year file. The law enforcement release or prosecutorial rejection reported in the prior year’s file is not retroactively updated or removed.
- If a person is arrested for multiple offenses, the extract selects only the most serious offense based on the severity of possible punishment. If there are multiple dispositions, the extract selects the most serious disposition and the associated offense.
- Disposition data on state institutional commitments may vary from information compiled and reported by other state agencies because of differences in the data collection systems and criteria.
- The adult felony arrest disposition file includes some persons whose age at arrest was under 18. These minors received a final disposition in adult court under provisions of Welfare and Institutions Code sections 602, 707(a), 707(b), 707(c), and 707.1(a).
- In 2019, there was a decrease in the number of final dispositions and sentences for felony adult arrests reported to California DOJ from 215,283 in 2018 to 110,002 in 2019.
- In 2020, the California Legislature passed Assembly Bill 823-Juvenile Justice Realignment. In accordance, the Division of Juvenile Justice (DJJ) closed as of 6/30/2023. The disposition previously labeled “DJJ” has been replaced with the new disposition “Secure Track County Facility-AB 823”.

ADULT PROBATION

- Probation data include adults placed on supervised probation only. Court probation, diversion, and summary probation data are not included.
- Adult probation data are limited to original grants of probation and do not include subsequent grants of probation to those already under supervised probation in the same county. Probationers are counted for each jurisdiction in which they are on probation.
- From 2001 to 2005, San Francisco did not report adult probation data. San Francisco resumed reporting in 2006.
- Counts for adults on active probation for felony offenses may also include adults on probation for misdemeanor offenses for the following counties and years: Contra Costa (2000-2024), Kern (2010-2024), Lake (2001-2012), Merced (2003-2016), Sacramento (2003-2015), Shasta (2016-2024), Siskiyou (2000-2012), Tulare (2000-2009), and Yolo (2000-2009).
- Some counties may have counted individuals on Post Release Community Supervision.
- In 2014, the San Bernardino County Probation Department discovered inaccurate probation statistics due to a flaw in their case management records system. Correcting the flaw resulted in a probation caseload decrease of 10,000 from previous years.
- In 2016, the Sacramento County Probation Department discovered that revoked and reinstated counts were not accurately reported in the data submitted for the reporting periods 2013-2015. Correcting the reporting practice resulted in a reduced beginning felony caseload for 2016.
- In October 2018, the San Joaquin County Probation Department discovered that probation caseload data had historically been inaccurately reported. An assessment of their records resulted in a decrease of both felony and misdemeanor caseloads by approximately 6,000.

CRIMINAL JUSTICE PERSONNEL

- The UCR definition of law enforcement personnel specifies that LEAs report only personnel paid by funds designated for law enforcement.
- The 1996 data collection survey forms were revised in an attempt to collect counts on the number of criminal justice personnel employed by prosecutors, public defenders, and probation departments, regardless of the funding source. Prior to 1996, counts excluded state and federally funded positions.

CIVILIANS' COMPLAINTS AGAINST PEACE OFFICERS

- Data on civilians' complaints against peace officers have been collected since 1981.
- Because of the nature of the requirements of Penal Code section 832.5, reporting definitions and procedures may vary among individual reporting agencies.
- Based on a survey conducted in 2004, it was estimated that approximately one-third of complaints against peace officers were made by inmates in prison and jails.
- In 2007, two LEAs adjusted their reporting policies, substantially affecting the number of reported non-criminal and felony complaints.
- In 2017, California Penal Code section 13012 was amended replacing the word citizens' with civilians'. This modification was applied to the 2018 data collection.
- In 2024, Oakland Police Department did not report due to a cyberattack.

DOMESTIC VIOLENCE-RELATED CALLS FOR ASSISTANCE

- Reporting of domestic violence-related calls for assistance began in July 1986. The first full year of reporting was 1987.
- The definition of “domestic violence” is subject to varying interpretations by law enforcement agencies. As a result, different types of domestic relationships are included in the database.
- The San Francisco Police Department did not report domestic violence data from April 1997 to December 1999.
- Included in the data are any cases that resulted in a report being written by the responding LEAs. Therefore, data include both cases where an arrest was made and those where circumstances did not warrant an arrest.
- In April 2002, LEAs were instructed to report personal weapons (hands, fists, or feet) only if the assault resulted in an injury (aggravated assault). This instruction resulted in a notable decrease in the number of personal weapons reported.
- Reporting anomalies have required minor adjustments to the 2014 and 2016 data. Data may not match those previously published.
- In 2017, California Penal Code section 13730 was amended. Beginning in 2018, LEAs were instructed to include whether there were indications that the incident involved strangulation or suffocation. This includes whether a witness or victim reported such an incident, or symptoms thereof, or whether an officer observed any other indications of strangulation or suffocation.

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED (LEOKA)

- LEOKA data from the UCR Program are available from 1990 to 2024.
- State correctional officers and federal agents are not included in LEOKA data.
- Beginning January 1, 2015, the LEOKA Data Collection created an exception to its collection criteria to include the data of individuals who are killed or assaulted while serving as a law enforcement officer at the request of a law enforcement agency whose officers meet the current collection criteria.

List of Data Tables

CRIMES

Table	Page
1 CRIMES, 1966–2024 Number and Rate per 100,000 Population	12
2 CRIMES, 2019–2024 Number, Rate per 100,000 Population, and Percent Change	14
3 CRIMES, 2019–2024 By Category and Crime	15
4 HOMICIDE CRIMES, 2019–2024 By Type of Weapon Used	15
5 RAPE CRIMES, 2019–2024 By Type	16
6 ROBBERY CRIMES, 2019–2024 By Location, Type of Robbery, and Type of Weapon Used	16
7 ASSAULT CRIMES, 2019–2024 By Type of Assault and Type of Weapon Used	17
8 BURGLARY CRIMES, 2019–2024 By Location, Time of Day, Type of Burglary, and Type of Entry	17
9 MOTOR VEHICLE THEFT CRIMES, 2019–2024 By Type of Vehicle	18
10 LARCENY-THEFT CRIMES, 2019–2024 Number, Rate per 100,000 Population, and Percent Change	18
11 LARCENY-THEFT CRIMES, 2019–2024 By Type and Value Categories	19
12 VALUE OF STOLEN AND RECOVERED PROPERTY, 2019–2024 By Type and Percent Change	19
13 VALUE OF STOLEN AND RECOVERED PROPERTY, 2019–2024 By Type of Property	20
14 ARSON CRIMES, 2019–2024 By Type of Property and Value of Property Damage	21
15 CRIMES CLEARED, 2019–2024 Number of Crimes, Clearances, and Clearance Rate	22

Table	Page
16 TOTAL ARRESTS, 1966–2024 Number and Rate per 100,000 Population at Risk	23
17 TOTAL ARRESTS, 2019–2024 Number, Rate per 100,000 Population, and Percent Change	25

Notes: Rates may not add to totals because of rounding.

Rates are based on annual population estimates provided by the Demographic Research Unit, California Department of Finance (see Table 53).
 Dash indicates data not available.

^a Prior to 2005, the Los Angeles Police Department had included child abuse and domestic violence simple assaults in its aggravated assault statistics. This change may have contributed to the large decrease in aggravated assaults from 2004 to 2005.

^b Includes estimated annual 1995 data provided by the Oakland Police Department.

¹ In 2014, the crime of "forcible rape" was changed to "rape." The definition was expanded to include both male and female victims and reflects the various forms of sexual penetration understood to be rape. The 2024 numbers for Rape consist of 3,389 reported under this current definition (SRS) and 10,485 reported under the definition for IBR. Caution should be used when comparing rape data to prior years. For additional information, including the SRS and IBR rape numbers for prior years, see Understanding the Data, Characteristics and Known Limitations.

² Data for arson crimes are not available prior to 1980. For additional information, see Understanding the Data, Characteristics and Known Limitations.

Not-aggravated assault ²	257,497		237,085		244,750		269,254		283,800		296,087		15.0	4.3

Note: Percentages may not add to 100.0 because of rounding.

¹ Hands, feet, etc.

² Assaults that do not involve the use of a firearm, knife, cutting instrument, or other dangerous weapon and in which there are no serious or aggravated injuries to the victims. Not-aggravated (simple) assaults are not included in the violent crime count. This category is shown here as a means of quality control and for the purpose of looking at total assault violence.

Table 8
BURGLARY CRIMES, 2019-2024

Notes: Values and percentages may not add to subtotals, total, or 100.0 because of rounding. Property type is determined by the point of origin of a fire.

^a The increase in the Arson value of property damage in 2020 is due to the damages reported in the Lightning Complex Fire that occurred in Solano County.

^b The increase in the industrial, manufacturing value of property damage in 2022 is due to the damages reported in the Home Depot fire that occurred in Santa Clara County.

^c The increase in the structural, other value of property damage in 2023 is due to the damages reported in the June San Gabriel fire in Los Angeles County.

Los Angeles Police Department reported a significant decrease in Arson crimes in 2023. For additional information, see Understanding the Data, Characteristics and Known Limitations.

¹ Single occupancy - houses, townhouses, duplexes, etc.

² Other residential - apartments, tenements, etc.

³ Storage - barns, garages, warehouses, etc.

⁴ Other commercial - stores, restaurants, etc.

⁵ Community/public - churches, jails, schools, etc.

⁶ Other structural property - outbuildings, buildings under construction, etc.

⁷ Motor vehicles - autos, trucks, buses, etc.

⁸ Other mobile property - trailers, recreational vehicles, airplanes, boats, etc.

⁹ Community/public - crops, timber, fences, etc.

Note: Dash indicates that a percent change was not calculated due to data definition change.

¹ In 2014, the crime of "forcible rape" was changed to "rape." The definition was expanded to include both male and female victims and reflects the various forms of sexual penetration understood to be rape. The 2024 numbers for Rape consist of 3,389 reported under this current definition (SRS) and 10,485 reported under the definition for IBR. Caution should be used when comparing rape data to prior years. For additional information, including the SRS and IBR rape numbers for prior years, see Understanding the Data, Characteristics and Known Limitations.

² Percentage of clearances to total crimes reported.

Notes: Statewide arrest data from 1952 through 1965 can be found in Table 16 of *Crime in California, 2006*.

Since 1966 there have been many changes in laws, data collection procedures, etc.; therefore, caution should be used when comparing data for the 1966 through 2024 period.

Juvenile misdemeanor arrest data for 1973 through 2024 are not comparable to prior years because of changes in reporting criteria.

^a In November 2014, California voters passed Proposition 47 which reduced some felony offenses to misdemeanors. These changes affected the offenses reported. Caution should be used when comparing felony and misdemeanor arrest data to prior years. For additional information, see Understanding the Data, Characteristics and Known Limitations and Appendix 2, Arrest Offense Codes

^b Includes estimated annual data for the Bakersfield Police Department and the Oakland Police Department. For additional information, see Understanding the Data, Characteristics and Known Limitations.

¹ Status offenses include truancy, incorrigibility, running away, and curfew violations. These offenses can only be committed or engaged in by a juvenile.

² Rates are based on annual population estimates provided by the Demographic Research Unit, California Department of Finance (see Table 53).

³ Rates are based on the population at risk for each year. The categories are total (10-69 years of age), adult (18-69 years of age), and juvenile (10-17 years of age) (see Table 53).

¹ In 2014, the crime of "forcible rape" was changed to "rape." The definition was expanded to include both male and female victims and reflects the various forms of sexual penetration understood to be rape. The 2024 numbers for Rape consist of 605 reported under this current definition (SRS) and 1,349 reported under the definition for IBR. Caution should be used when comparing rape data to prior years. For additional information, including the SRS and IBR rape numbers for prior years, see Understanding the Data, Characteristics and Known Limitations.

Note: Dash indicates that a percent change is not calculated when the base number is less than 50.

Dash indicates that a percent change was not calculated due to data definition change.

¹ In 2014, the crime of "forcible rape" was changed to "rape." The definition was expanded to include both male and female victims and reflects the various forms of sexual penetration understood to be rape. The 2024 numbers for Rape consist of 818 reported under this current definition (SRS) and 958 reported under the definition for IBR. Caution should be used when comparing rape data to prior years. For additional information, including the SRS and IBR rape numbers for prior years, see Understanding the Data, Characteristics and Known Limitations.

² Rates are based on the population at risk for each year. The categories are total (10-69 years of age), adult (18-69 years of age), and juvenile (10-17 years of age) (see Table 63).

Note: Percentages may not add to subtotals or 100.0 because of rounding.

Dash indicates that a percent change was not calculated due to data definition change.

¹ In 2014, the crime of "forcible rape" was changed to "rape." The definition was expanded to include both male and female victims and reflects the various forms of sexual penetration considered to be rape. The 2024 numbers for Rape committed by adults consist of 562 reported under this current definition (SRS) and 1,259 reported under the definition for IBR. Caution should be used when comparing rape data to prior years. For additional information, including the SRS and IBR rape numbers for prior years, see Understanding the Data, Characteristics and Known Limitations.

² Starting in 2021, there was an increase in the Turned Over to Other Agency and decrease in the Complaint Sought dispositions. This was due to a record management system issue affecting several large agencies that caused no Complaint Sought dispositions to be reported in IBR.

Notes: Percentages may not add to subtotals because of rounding.

Dash indicates that a percent change is not calculated when the base number is less than 50.

Dash indicates that a percent change was not calculated due to data definition change.

¹ In 2014, the crime of "forcible rape" was changed to "rape." The definition was expanded to include both male and female victims and reflects the various forms of sexual penetration understood to be rape. The 2024 numbers for Rape committed by juveniles consist of 43 reported under this current definition (SRS) and 90 reported under the definition for IBR. Caution should be used when comparing rape data to prior years. For additional information, including the SRS and IBR rape numbers for prior years, see Understanding the Data, Characteristics and Known Limitations.

² Starting in 2021, there was an increase in the Turned Over to Other Agency and decrease in the Complaint Sought dispositions. This was due to a record management system issue affecting several large agencies that caused no Complaint Sought dispositions to be reported in IBR.

Released.....	34,772	28,661	30,200	42,337	58,791	63,378	11.9	82.3	7.8
Turned over to other agency.....	11,045	5,878	35,209	94,480	81,627	77,106	14.5	598.1	-5.5
Complaint sought.....	689,403	531,117	450,320	361,791	361,805	391,024	73.6	-43.3	8.1

Notes: Percentages may not add to 100.0 because of rounding.
 Dash indicates that a percent change is not calculated when the base number is less than 50.
¹ Starting in 2021, there was an increase in the Turned Over to Other Agency and decrease in the Complaint Sought dispositions. This was due to a record management system issue affecting several large agencies that caused no Complaint Sought dispositions to be reported in IBR.

Notes: Percentages may not add to 100.0 because of rounding.

Dash indicates that a percent change is not calculated when the base number is less than 50.

^a Total arrest and complaint sought law enforcement disposition counts for 2021 will not match previously published data.

¹ Status offenses include truancy, incorrigibility, running away, and curfew violations. These offenses can only be committed or engaged in by a juvenile.

² Starting in 2021, there was an increase in the Turned Over to Other Agency and decrease in the Complaint Sought dispositions. This was due to a record management system issue affecting several large agencies that caused no Complaint Sought dispositions to be reported in IBR.

¹ California has expanded the sex (gender) categories it collects in CIBRS to include: male, female, non-binary, and transgender. The 2024 arrest numbers include 220 transgender (identifying as male) and 465 transgender (identifying as female) in the male and female gender categories, respectively. Arrest numbers for the non-binary gender category are not included in this table due to the small population size. Caution should be used when comparing gender data to prior years. For additional information, including the expanded gender category numbers for prior years, see Understanding the Data, Characteristics and Known Limitations.

Note: Percentages may not add to 100.0 because of rounding.

¹ California has expanded the sex (gender) categories it collects in CIBRS to include: male, female, non-binary, and transgender. The 2024 arrest numbers include 77 transgender (identifying as male) and 170 transgender (identifying as female) in the male and female gender categories, respectively. Arrest numbers for the non-binary gender category are not included in this table due to the small population size. Caution should be used when comparing gender data to prior years. For additional information, including the expanded gender category numbers for prior years, see Understanding the Data, Characteristics and Known Limitations.

² In 2014, the crime of "forcible rape" was changed to "rape." The definition was expanded to include both male and female victims and reflects the various forms of sexual penetration understood to be rape. The 2024 numbers for Rape consist of 605 reported under this current definition (SRS) and 1,349 reported under the definition for IBR. Caution should be used when comparing rape data to prior years. For additional information, including the SRS and IBR rape numbers for prior years, see Understanding the Data, Characteristics and Known Limitations.

Note: California has expanded the sex (gender) categories it collects in CIBRS to include: male, female, non-binary, and transgender. The 2024 arrest numbers include 77 transgender (identifying as male) and 170 transgender (identifying as female) in the male and female gender categories, respectively. Arrest numbers for the non-binary gender category are not included in this table due to the small population size. Caution should be used when comparing gender data to prior years. For additional information, including the expanded gender category numbers for prior years, see Understanding the Data, Characteristics and Known Limitations.

¹ In 2014, the crime of "forcible rape" was changed to "rape." The definition was expanded to include both male and female victims and reflects the various forms of sexual penetration understood to be rape. The 2024 numbers for Rape consist of 605 reported under this current definition (SRS) and 1,349 reported under the definition for IBR. Caution should be used when comparing rape data to prior years. For additional information, including the SRS and IBR rape numbers for prior years, see Understanding the Data, Characteristics and Known Limitations.

Note: Percentages may not add to 100.0 because of rounding.

¹ California has expanded the sex (gender) categories it collects in CIBRS to include: male, female, non-binary, and transgender. The 2024 arrest numbers include 143 transgender (identifying as male) and 295 transgender (identifying as female) in the male and female gender categories, respectively. Arrest numbers for the non-binary gender category are not included in this table due to the small population size. Caution should be used when comparing gender data to prior years. For additional information, including the expanded gender category numbers for prior years, see Understanding the Data, Characteristics and Known Limitations.

Note: California has expanded the sex (gender) categories it collects in CIBRS to include: male, female, non-binary, and transgender. The 2024 arrest numbers include 143 transgender (identifying as male) and 295 transgender (identifying as female) in the male and female gender categories, respectively. Arrest numbers for the non-binary gender category are not included in this table due to the small population size. Caution should be used when comparing gender data to prior years. For additional information, including the expanded gender category numbers for prior years, see Understanding the Data, Characteristics and Known Limitations.

Source: Data extracted from the California Department of Justice Criminal History System. For additional information, see Understanding the Data, Characteristics and Known Limitations.

Notes: This table presents the number and type of final dispositions and sentences for felony arrests reported to the California Department of Justice by law enforcement agencies, district attorneys, and courts. Caution should be used when interpreting this information because arrests and dispositions are underreported. It should also be noted that approximately 1.6% of the adult felony convictions contained in these data represent a disposition that the California Department of Justice was unable to positively link to a criminal record; accordingly, an arrest event was created based solely upon the disposition information provided. There is no way for the California Department of Justice to estimate the exact percentage of underreported dispositions. The nature, extent, and reasons for this underreporting vary from agency to agency and from year to year. Percentages may not add to subtotals or 100.0 because of rounding.

^a In 2019, there was a decrease in the number of final dispositions and sentences for felony adult arrests reported to the California Department of Justice.

^b In November 2014, California voters passed Proposition 47 which reduced some felony offenses to misdemeanors. Caution should be used when comparing felony arrest disposition data to prior years.

¹ The "prosecution rejections and resolutions" category includes single complaints, combined cases, and petitions to revoke probation.

² The "dismissed, acquitted" category includes diversions that have been dismissed.

Source: Data extracted from the California Department of Justice Criminal History System. For additional information, see Understanding the Data, Characteristics and Known Limitations.

Notes: This table presents the number and type of final dispositions and sentences for felony arrests reported to the California Department of Justice by law enforcement agencies, district attorneys, and courts. Caution should be used when interpreting this information because arrests and dispositions are underreported. It should also be noted that approximately 1.6% of the adult felony convictions contained in these data represent a disposition that the California Department of Justice was unable to positively link to a criminal record; accordingly, an arrest event was created based solely upon the disposition information provided. There is no way for the California Department of Justice to estimate the exact percentage of underreported dispositions. The nature, extent, and reasons for this underreporting vary from agency to agency and from year to year.

Data include convictions for both misdemeanors and felonies.

Percentages may not add to subtotals or 100.0 because of rounding.

^aIn 2019, there was a decrease in the number of final dispositions and sentences for felony adult arrests reported to the California Department of Justice.

¹The "state institutions" category includes sentences to death, prison, California Rehabilitation Center (civil addict), and the Division of Juvenile Justice.

²The "probation" category includes straight probation, fine, and other (no sentence given, sentence suspended, and sentence stayed).

³Violent offenses include homicide, rape, robbery, assault, and kidnapping.

⁴Property offenses include burglary, theft, motor vehicle theft, forgery, check, and access card offenses; and arson.

Note: These data include adults placed on supervised probation only. Data are limited to original grants of probation and do not include subsequent grants of probation to persons already under supervised probation in the same county.

^a In 2018, San Joaquin County Probation discovered inaccurate reporting of caseload counts resulting in corrected felony and misdemeanor caseload counts for October.

^b In 2016, Sacramento County Probation discovered inaccurate reporting of caseload counts from 2013-2015 resulting in a corrected beginning felony caseload count for 2016.

^c In November 2014, California voters passed Proposition 47 which reduced numerous state statutes from felonies to misdemeanors. Caution should be used when comparing felony and misdemeanor data to prior years.

^d San Bernardino County Probation revised their beginning caseload counts for 2014. The revision resulted in a decrease of almost 9,000 felony cases and an increase of almost 400 misdemeanor cases.

Notes: Rates and percentages may not add to subtotals, total, or 100.0 because of rounding.
 These data include adults placed on supervised probation only. Data are limited to original grants of probation and do not include subsequent grants of probation to persons already under supervised probation in the same county.

Rates per 100,000 population at risk for 2017 and 2023 will not match previously published data.

¹ Rates are based on the adult population at risk (18-69 years of age) for each year (see Table 53).

² "Other" includes transfer of jurisdiction from one county to another, death, sentence vacated, successful appeal, deportation, etc.

1969.....	61,553	51,104	2,786	914	6,749

Note: Personnel in the Department of Justice and state regulatory agencies are not included.

¹The passage of Assembly Bill 196 required that county-level child support programs, previously administered by district attorneys, be operated by local child support agencies. This accounts for the large decrease in prosecution personnel since 2001.

Source: Civilians' Complaints Against Peace Officer counts are obtained from an annual survey conducted in January of the following statistical year.

Notes: Data collection began in 1981.

Because of the individual nature of the requirements of Penal Code section 832.5(a), reporting definitions and procedures vary among reporting agencies.

The data collected under Penal Code section 13012(5) are accurate and complete to the extent that the contributing agencies met reporting obligations.

¹ Based on a survey conducted in 2004, it is estimated that complaints from inmates in prisons and jails may constitute approximately one-third of all complaints reported by law enforcement agencies.

^a Oakland Police Department did not report CCAPO for 2024 due to a cyberattack.

^b The increase in the number of reported non-criminal complaints and the decrease in the number of reported felony complaints result from reporting-policy changes made by two law enforcement agencies.

Source: Civilians' Complaints Against Peace Officer counts are obtained from an annual survey conducted in January of the following statistical year.
 Notes: Expanded categories of complaint findings and profiling data collection began in 2016 as a result of the passage of Assembly Bill 953 (2015).
 Reporting agencies may use more findings than those captured on the annual survey. Complaints reported in previous years may be finalized and their findings reported in subsequent years. Consequently, the sum of the findings may not add up to the total reported.
 More than one type of profiling complaint can be reported per citizen complaint. Consequently, the total number of profiling complaints is less than the sum of the types of complaints.
 Because of the individual nature of the requirements of Penal Code section 832.5(a), reporting definitions and procedures vary among reporting agencies.
 The data collected under Penal Code section 13012(f) are accurate and complete to the extent that the contributing agencies met reporting obligations.
¹ Oakland Police Department did not report CCAPO for 2024 due to a cyberattack.

¹ Hands, feet, etc.
² Prior to 1989, the "personal weapon" category was not recognized by all reporting agencies as a type of weapon. When those agencies began reporting personal weapon calls as cases involving weapons, they did not provide the type of weapon designation. This accounts for the large increase in "not reported" weapons in 1989 and 1990.
³ Data for cases with strangulation or suffocation are not available prior to 2018. For additional information, see Understanding the Data, Characteristics and Known Limitations.
^a Data may not match previously published data for 2014 and 2016.
^b In April 2002, law enforcement agencies were instructed to report personal weapons only if the assault resulted in an injury (aggravated assault).
^c The San Francisco Police Department was unable to provide complete data for 1997, and did not report data for 1998 and 1999 because of computer problems. In 1996, this department reported 6,422 domestic violence-related calls for assistance.
^d The Oakland Police Department was unable to provide 1995 data. In 1994, this department reported 5,237 domestic violence-related calls for assistance.
^e Data collection began in July 1986; therefore, only six months of data are available and displayed for 1986.

Notes: Data may not match previously published data.

¹ An "event" is an occurrence of one or more criminal offenses committed against one or more victims by one or more suspects/perpetrators.

² A "victim" may be an individual, a reproductive health facility, a religious facility, a residence, etc. A victim can have more than one offense committed against them.

³ Suspect counts only reflect when certain demographics are reported.

⁴ Hands, feet, etc.

⁵ The type of weapon only applies to crimes against persons or in cases involving incendiary devices.

Notes: This table provides summary statistical data on the total number of persons 60 years of age or older who were victims of homicide, rape, robbery, or aggravated assault.

¹ In 2014, the crime of "forcible rape" was changed to "rape." The definition was expanded to include both male and female victims and reflects the various forms of sexual penetration understood to be rape. The 2024 numbers for Rape consist of 94 reported under this current definition (SRS) and 310 reported under the definition for IBR. Caution should be used when comparing rape data to prior years. For additional information, including the SRS and IBR rape numbers for prior years, see Understanding the Data, Characteristics and Known Limitations.

Source: Population estimates were provided by the Demographic Research Unit, California Department of Finance.

¹ Total population at risk: 10-69 years of age.

² Adult population at risk: 18-69 years of age.

³ Juvenile population at risk: 10-17 years of age.

Appendix 1

Computational Formulas

CRIMES

Crime rate – A crime rate describes the number of crimes reported to law enforcement agencies for every 100,000 persons within a population. A crime rate is calculated by dividing the number of reported crimes by the total population. The result is then multiplied by 100,000. For example, in 2024 there were 46,141 robberies in California and the population was 39,172,742. This equals a robbery crime rate of 117.8 per 100,000.

$$\frac{46,141}{39,172,742} = 0.0011778 \times 100,000 = 117.8 \text{ per } 100,000$$

Clearance rate – A clearance rate describes the percentage of clearances reported to the number of crimes reported. A clearance rate is calculated by dividing the number of clearances by the number of crimes reported. The result is multiplied by 100. For example, in 2024 there were 1,070 clearances for homicide crimes and 1,666 homicides reported. This equals a homicide clearance rate of 64.2%.

$$\frac{1,070}{1,666} = 0.64225 \times 100 = 64.2\%$$

ARRESTS

Arrest rate – An arrest rate describes the number of arrests made by law enforcement agencies per 100,000 total population or per 100,000 population considered to be at risk for arrest. Regardless of the population used, both rates are calculated in the same manner. An arrest rate is calculated by dividing the number of reported arrests by the desired population. The result is multiplied by 100,000.

For example: 1) In 2024, there were 261,400 total felony arrests and the total population was 39,172,742, which equates to a 667.3 arrest rate; 2) In 2024, there were 261,400 total felony arrests and the population at risk (10-69 years of age) was 30,311,953, which equates to a 862.4 arrest rate.

$$1) \frac{261,400}{39,172,742} = 0.0066730 \times 100,000 = 667.3 \text{ per } 100,000 \text{ population}$$

$$2) \frac{261,400}{30,311,953} = 0.0086237 \times 100,000 = 862.4 \text{ per } 100,000 \text{ population at risk}$$

ADDITIONAL INFORMATION

Percent change – A percent change describes the change in number or rate from one year to another. A percent change is calculated by subtracting the base-year data from the current-year data. The result is divided by the base-year data and multiplied by 100. For example, in 2024 the robbery crime rate was 117.8. In 2019, the robbery crime rate was 130.3. The percent change in rate from 2019 to 2024 is a 9.6% decrease.

$$\frac{117.8 - 130.3}{130.3} = -0.09593 \times 100 = -9.6\%$$

Populations at risk – The Arrest tables in this report (16, 17, 22, and 27) include three comparison populations: total (10–69 years of age), adult (18–69 years of age), and juvenile (10–17 years of age). The term Population at Risk refers to that portion of the total population who, because of like characteristics to the specific study group, are considered “at risk”. For example, juveniles, all persons ages 10-17 would constitute the at risk population. Both populations, 10-17 years of age and 18-69 years of age are grouped together as the population at risk for the purpose of this publication for arrest incident occurrences.

When a series of rates is calculated using different populations, the rate calculated for the total will not equal the sum of the rates for the parts. For example, the arrest rate calculated using the total at risk population will not equal the sum of the juvenile arrest rate (based on the juvenile at risk population) and the adult arrest rate (based on the adult at risk population).

Also, the percent changes calculated for these at risk rates cannot be added. This is because the percent change in the total arrest rate is the result of independent changes in both the number of arrests and the at risk populations of adults and juveniles.

Appendix 2

Arrest Offense Codes

The following statutes and their offense groupings were valid at the time of the closeout of the 2024 arrest offense code file. All statutory codes listed are for Penal Code sections unless indicated as follows:

BP - Business and Professions Code
CC - Corporations Code
CI - Civil Code
EC - Education Code
FA - Food and Agriculture Code
FC - Financial Code

FG - Fish and Game Code
GC - Government Code
HN - Harbors and Navigation Code
HS - Health and Safety Code
IC - Insurance Code
LC - Labor Code

MV - Military and Veterans Code
PR - Public Resources Code
RT - Revenue and Taxation Code
SH - Streets and Highways Code
UI - Unemployment Insurance Code
VC - Vehicle Code
WI - Welfare and Institutions Code

FELONY-LEVEL ARREST OFFENSES

Homicide - 128, 187(a), 192(a), 192(b), 273ab(a), 18755(a)

Rape - 220, 220(a)(1), 220(a)(2), 220(b), 261(a)(1), 261(a)(2), 261(a)(3), 261(a)(4), 261(a)(5), 261(a)(6), 261(a)(7), 264.1(a), 264.1(b)(1), 264.1(b)(2), 266c, 269(a)(1), 269(a)(2), 269(a)(3), 269(a)(4), 269(a)(5), 286(b)(1)*, 286(b)(2), 286(c)(1), 286(c)(2)(a), 286(c)(2)(b), 286(c)(2)(c), 286(c)(3), 286(d)(1), 286(e), 286(f), 286(g), 286(h)*, 286(i), 286(j), 286(k), 287(b)(1)*, 287(b)(2), 287(c)(1), 287(c)(2)(a), 287(c)(2)(b), 287(c)(2)(c), 287(c)(3), 287(d)(1)(a), 287(d)(1)(b), 287(d)(1)(c), 287(d)(2), 287(d)(3), 287(e)*, 287(f), 287(f)(1), 287(f)(2), 287(f)(3), 287(f)(4), 287(g), 287(h)*, 287(i), 287(j), 287(k), 288.7(a), 288.7(b), 289(a)(1)(a), 289(a)(1)(b), 289(a)(1)(c), 289(a)(2), 289(b), 289(c), 289(d), 289(d)(1), 289(d)(2), 289(d)(3), 289(d)(4), 289(e), 289(f), 289(g), 289(h)*, 289(i), 289(j)

Nonsupport - 270*, 270a, 270c, 270.5(a), 270.6, 271, 271a

All Other Misdemeanor Offenses

Notes: These codes are valid for 2024 data and may not be applicable for prior years.

"All Other Felony Offenses" also includes sections in the Election Code and Water Code.

"All Other Misdemeanor Offenses" also includes sections in the California Code of Regulations, City or County Ordinances, Civil Procedure Code, Election Code, Public Utilities Code, Uniform Fire Code, and Water Code.

Arrests for attempted offenses are reported in their respective categories with the exception of homicide and manslaughter, which are captured in the felony assault category.

*These code sections can be either a felony or a misdemeanor.

Acknowledgments

California Department of Justice is mandated by statute to submit an annual *Crime in California* report to the Legislature. The department extends its appreciation to all the law enforcement agencies that provided complete and timely data. This report would not have been possible without their cooperation.
