Executive Summary

Juvenile Justice in California

2025

The California Department of Justice (DOJ) is required to collect and report statistics on juvenile justice in California. *Juvenile Justice in California 2025* provides insight into the juvenile justice process by reporting the number of arrests, referrals to probation departments, petitions filed, and dispositions for juveniles tried in juvenile and adult courts. Law enforcement agencies provide information to DOJ on the number of arrests. Probation departments and superior courts provide information to DOJ on the types of offenses and administrative actions taken by juvenile and adult courts.

Juvenile Justice in California 2025 reflects data extracted from the California Incident-Based Reporting System (CIBRS), the Juvenile Court and Probation Statistical System (JCPSS), and a file containing dispositions of adult-level felony arrests (Appendix 1 describes the evolution of this system). For this reporting year, referral and petition statistics were submitted to the JCPSS by 57* of California's 58 counties, representing over 99% of the state's juvenile population.

Juvenile Justice in California 2025 presents juvenile justice statistics in four sections: Arrests, Referrals, Petitions, and Adult Court Dispositions. The arrest data were reported by law enforcement agencies and referral data were reported by probation departments. Comparisons between arrest data and referral data should not be made as there are differences in the way data were reported between the two sources. See *Understanding the Data* for more information.

*Sierra County did not report in 2025. DOJ continues to work with Sierra County in order to achieve 100 percent reporting.

Below is a summary of facts from each of the sections.

Arrests

The *Arrests* section presents information on the number of juveniles arrested, the types of arrest charges, and the demographic characteristics of the juveniles as reported in 2025.

- The number of juvenile arrests decreased by 7.0% from 32,874 in 2024 to 30,568 in 2025 (Table 8).
- 46.7% (14,283) of juveniles were arrested for a felony offense; 52.1% (15,911) were arrested for a misdemeanor offense; and 1.2% (374) were arrested for a status offense* (Table 8).
- 46.8% (14,317) of juveniles arrested were referred to county juvenile probation departments (Table 1).

Referrals

The *Referrals* section presents information on the number of juveniles referred to county probation departments, the entity who referred the juveniles to the probation departments, the type of referral, the demographic characteristics of the juveniles referred, and the probation department dispositions as reported in 2025.

- 91.5% (39,068) of the juveniles referred to county probation departments were referred by law enforcement agencies (Table 9).
- 30.1% (12,155) of the juveniles referred to county probation departments were detained (Table 14).
- 35.1% (14,987) of the juvenile cases referred to county probation departments were closed at intake, indicating that no further action was taken (Table 14).
- 55.3% (23,604) of the referrals to the county probation departments, a petition was filed in juvenile court (Table 14).

**Status offenses* are acts that would not be classified as crimes if committed by adults.

Petitions

The *Petitions* section presents information on cases where a petition for formal juvenile court adjudication was filed by the Probation Department or District Attorney. This section includes the number of petitions filed, the types of petitions filed, the demographic characteristics of the juveniles, and the dispositions for those petitions handled in juvenile court in 2025.

- In 54.0% (12,751) of those cases where petitions were filed, the juvenile was made a ward of the court (Table 20).
- 24.2% (5,704) of the petitions for formal juvenile court adjudication were dismissed (Table 20).

Adult Court Dispositions

The *Adult Court Dispositions* section presents information on juveniles whose cases were processed in adult court, including the number and characteristics of the juveniles, and the adult court dispositions reported in 2025.

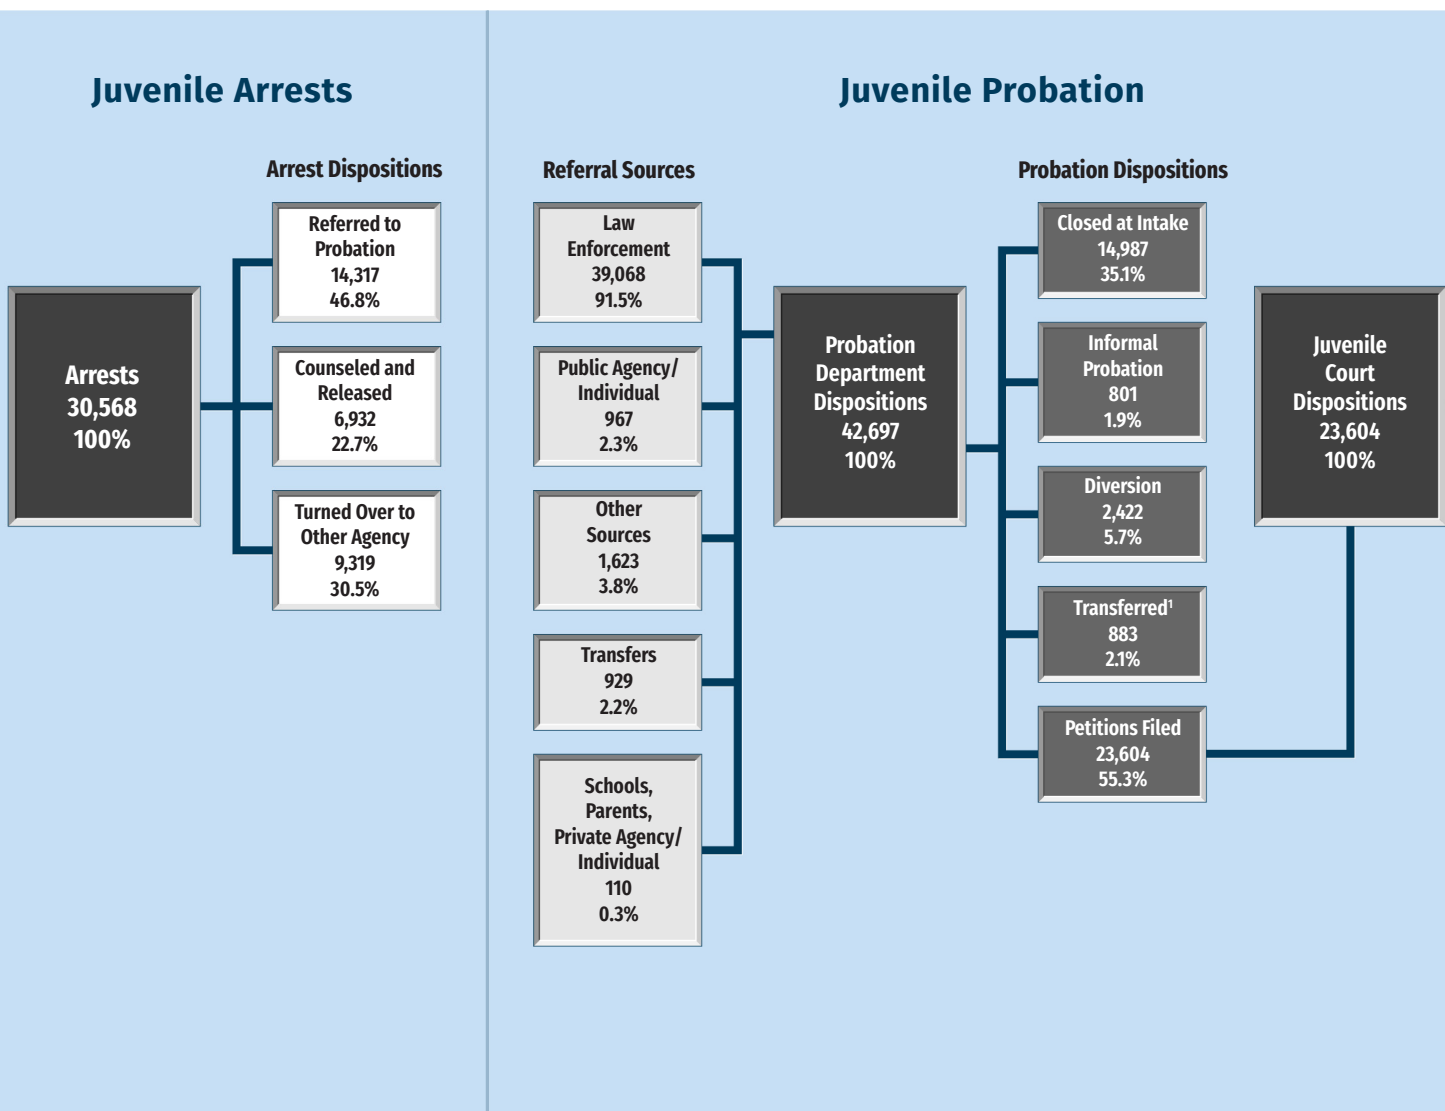

- Of the 95 juveniles whose cases were processed in adult court, 46.3% were convicted (Table 30).

Note:

In November of 2016, California voters passed Proposition 57, which ended the process of juveniles being transferred directly (direct filed) to adult court by county prosecutors. The law was effective immediately, making 2016 the final year, and a partial year, where direct file data would need to be tracked as part of the Juvenile Justice in California publication. Under current law, juveniles may only be transferred to adult court by a judge after a hearing, commonly known as a fitness or juvenile transfer hearing.

¹ *Transferred* includes traffic court and deportation.

² In 2020, the California Legislature passed Senate Bill 823-Juvenile Justice Realignment. In accordance, the Division of Juvenile Justice (DJJ) closed as of 6/30/2023. The disposition previously labeled “DJJ” has been replaced with the new disposition “Secure Track County Facility-SB 823” and is represented in this annual report as “STCF-SB823.”

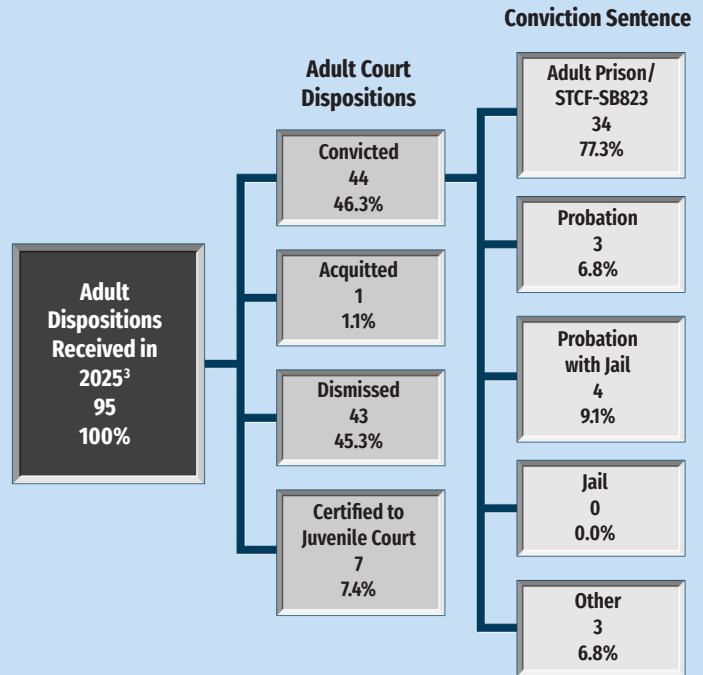

³ In 2025, probation departments reported information on 10 remands to the adult system. The adult court disposition information discussed here is for the 95 dispositions received in 2025.

Juvenile Justice System, 2025 (continued)

Juvenile Probation

Juveniles to Adult Court

- Arrest data were reported to DOJ by law enforcement agencies and referral data was reported by probation departments. Data comparisons should not be made because of differences in the way data is reported between sources. See *Understanding the Data* for more detail.
- Typically, referrals are made to the probation department in the juvenile's county of residence. The majority of referrals in this report came from police and sheriff's departments (91.5%) (Table 9).
- Probation departments decide how to process referred cases. A case may be closed or transferred; a juvenile may be placed on informal probation or in a diversion program; or a petition may be sought for a court hearing.
- Over half of formal juvenile court hearings resulted in the juvenile being made a ward of the court (54.0%). Half of wards were allowed to go home under the supervision of the probation department (51.4%) (Table 20).
- Juveniles can be remanded to the adult criminal justice system for prosecution if a juvenile court judge finds the juvenile is unfit for juvenile court. Less than half of the 95 dispositions received in adult court in 2025 resulted in a conviction (46.3%) (Table 30).

Understanding the Data

Arrests CIBRS

- If a person is arrested for multiple offenses, only the most serious offense based on the severity of the possible punishment is selected.
- Felony arrest counts may include some misdemeanor warrants for felony offenses.
- In 2013, the Federal Bureau of Investigation’s Uniform Crime Reporting Program revised the definition of “forcible rape” (the carnal knowledge of a female forcibly and against her will) to “rape” and defined as “penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.” California DOJ instituted this definition change in January 2014.
- In November 2014, California voters passed Proposition 47, which reduced a number of marijuana-related offenses from felonies to misdemeanors. Caution should be used when comparing felony and misdemeanor arrest data to prior years.
- In November 2016, California voters passed Proposition 64, which legalized the possession and use of marijuana for individuals 21 years of age and older and reduced the offense degree for a number of marijuana-related offenses. Caution should be used when comparing drug offense arrests to prior years.
- The Federal Bureau of Investigation’s Uniform Crime Reporting Program only accepts gender values of male and female. Efforts are underway to expand the values accepted for gender.

Referrals and Petitions JCPSS

- Each year there is a difference between the number of referrals to probation via the JCPSS and the number of juvenile arrests reported by law enforcement agencies as “referred to juvenile court and probation.” The difference is due, in part, to the various programs and definitions used by law enforcement agencies and probation departments for submitting data to DOJ. However, there are two primary reasons for the difference:
 - a. Probation departments report caseload information, while law enforcement agencies report information on individual arrests.
 - b. The JCPSS counts only those juveniles who have a final disposition reported to DOJ. Many probation departments divert juveniles out of the system into other community-based programs. As a result, many juveniles who are diverted after being referred by law enforcement agencies are not reported in the JCPSS.
- All juvenile referrals for law violations and status offenses are reported in the JCPSS.
- The information presented in this report represents the data received from 57 counties. Sierra County is not included in the JCPSS portion of the report. This one county did not provide DOJ with data in 2025.
- In 2003, the JCPSS was modified to accept up to five offenses per referral or petition. Previously, the JCPSS only accepted the most serious offense per referral or petition.

Referrals and Petitions JCPSS (continued)

- The subjectivity of the classification and labeling process must be considered in the analysis of race/ethnic group data. As commonly used, race refers to large populations that share certain physical characteristics, such as skin color. Because these physical characteristics can vary greatly within groups, as well as between groups, determination of race is frequently, by necessity, subjective. Ethnicity refers to cultural heritage and can cross racial lines. For example, the ethnic designation “Hispanic” includes persons of any race. Most commonly, self-identification of race/ethnicity is used in the classification and labeling process.
- In November of 2016, California voters passed Proposition 57, which ended the process of juveniles being transferred directly (direct filed) to adult court by county prosecutors. The law was effective immediately, making 2016 the final year, and a partial year, where direct file data would need to be tracked as part of the Juvenile Justice in California publication. Under current law, juveniles may only be transferred to adult court by a judge after a hearing, commonly known as a fitness or juvenile transfer hearing.
- In September of 2018, Senate Bill 1391 was signed into law so that no juvenile under the age of sixteen can be transferred to the jurisdiction of adult criminal courts.

Dispositions of Adult-Level Felony Arrests

- Adult felony arrest disposition data are extracted annually from the California DOJ Criminal History System. The data statistically capture the number of adult-level final dispositions that occur each year as a result of a felony arrest and are displayed by the year of disposition regardless of the year in which an arrest occurred.
- Disposition data do not reflect the actual number of final dispositions occurring each year. Fluctuations from year to year may not necessarily be the result of actual occurrences in the criminal justice system, but may reflect the degree to which reports of dispositions were reported and processed.
- “Final disposition” refers to the last adult-level legal action that is reported prior to the close of the annual file. Final disposition can occur at the law enforcement, prosecutorial, or court level. Intermediate dispositions (diversion programs, suspended proceedings, or subsequent actions) are not included in the data.
- If a person is arrested for multiple offenses, the extract selects only the most serious offense based on the severity of possible punishment. If there are multiple dispositions, the extract selects the most serious disposition and the associated offense.
- Disposition data on state institutional commitments may vary from information compiled and reported by other state agencies because of differences in the data collection systems and criteria.
- The adult felony arrest disposition file includes some persons whose age at arrest was under 18. These minors received a final disposition in adult court under provisions of Welfare and Institutions Code sections 602, 707(a), 707(b), 707(c), and 707.1(a).

DATA ANALYSIS

Arrests

A juvenile may be arrested for either violating a criminal statute or committing a status offense. Status offenses are acts that are considered offenses only when committed by a juvenile, such as curfew violations, truancy, running away, and incorrigibility.

This section contains information on the 30,568 juvenile arrests reported by law enforcement agencies in 2025. This section also includes information on the characteristics of juvenile arrests and arrestees, and the law enforcement dispositions of those arrests. Although some arrests involve more than one offense, only the most serious are shown in this report. Arrest data for all 58 counties were extracted from the California Incident-Based Reporting System (CIBRS).

The law enforcement disposition of a juvenile arrest is affected by several variables: investigative findings and the facts surrounding the alleged offense; prior arrest record; seriousness of the offense; determined need for admonishment; recourse to other authority; and other factors determined by the individual case.

Law enforcement agencies have three methods for the disposition of a juvenile arrest:

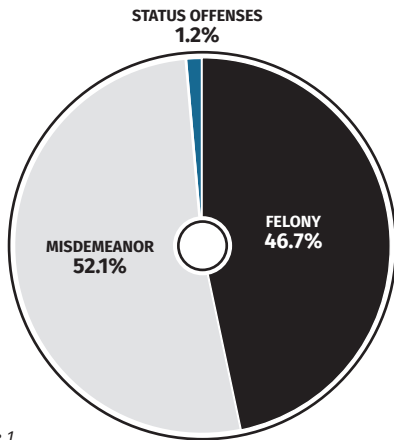

- Refer to probation departments for further processing. Some are handled at the probation level, while others are sent to juvenile and criminal courts for final disposition.
- Handle within the department, where juveniles are counseled and released.
- Turn over to another agency.

Notes: References to race/ethnicity will be made throughout this report. The subjectivity of the classification and labeling process must be considered in the analysis of race/ethnic group data. As commonly used, race refers to large populations that share certain physical characteristics, such as skin color. Because these physical characteristics can vary greatly within groups, as well as between groups, determination of race is frequently, by necessity, subjective. Ethnicity refers to cultural heritage and can cross racial lines. For example, the ethnic designation Hispanic can include persons of any race. Most commonly, self-identification of race/ethnicity is used in the classification and labeling process.

Percentages throughout this section may not add to 100.0 because of rounding.

Referrals

Juvenile referrals occur when a juvenile is brought to the attention of the probation department for a case review. Juveniles can be referred by a variety of sources, with the largest percentage of referrals coming from law enforcement. Referrals may also be generated by a school, parent, public agency or individual, private agency or individual, or by transfers from another county or state.

Referrals to the probation department consist of two types: new and subsequent. The term “new referral” applies to a juvenile who is not currently supervised by the probation department and is typically a first-time offender. The term “subsequent referral” applies to a juvenile who is currently supervised by the probation department. A subsequent referral generally results from a new arrest or probation violation.

After a juvenile is referred to the probation department, a probation officer determines whether the juvenile should be detained or released. The probation department also conducts an investigation and determines whether the case should be closed or transferred to another county; whether the juvenile should be placed on informal probation; or whether a petition should be filed with the court.

This section examines referrals by gender, age group, and race/ethnic group. For the purpose of this section, the term “juvenile” refers to those individuals processed through the juvenile court system.

The data used in this section originated from 57* participating county probation departments. This information was submitted to DOJ from referrals reported in the JCPSS. See *Understanding the Data* for more information.

Notes: Arrest data are reported by law enforcement agencies, whereas referral data are reported by probation departments. Comparisons between arrest data and referral data should not be made because of differences in the way data are reported between the two sources. See *Understanding the Data* for details.

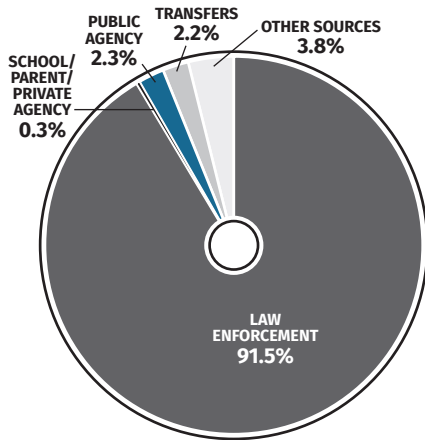

In November of 2016, California voters passed Proposition 57, which ended the process of juveniles being transferred directly (direct filed) to adult court by county prosecutors. For additional information, see *Understanding the Data*.

Percentages throughout this section may not add to 100.0 because of rounding.

*Sierra County did not report in 2025. DOJ continues to work with Sierra County in order to achieve 100 percent participation.

Petitions

In the juvenile justice system, a case may be handled informally by the probation department or formally by the juvenile court. If the case proceeds for formal processing, the district attorney files a petition with the juvenile court to initiate court action.

There are two types of petitions filed in juvenile court: new and subsequent. The term “new petition” applies to a juvenile who is not being supervised by the probation department and is typically a first-time offender. The term “subsequent petition” applies to a juvenile who is currently being supervised by the probation department and subsequently re-offends.

This section examines petitions by gender, age group, race/ethnic group, offense, transfer hearings, and disposition.

The data used in this section originated from 57* participating county probation departments. This information was routed to DOJ from petitions reported in the JCPSS. See *Understanding the Data* for more information.

Note: Percentages throughout this section may not add to 100.0 because of rounding.

*Sierra County did not report in 2025. DOJ continues to work with Sierra County in order to achieve 100 percent participation.

Adult Court Dispositions

Juveniles can be transferred to the adult justice system for prosecution only after a transfer hearing before a juvenile court judge. In 2025, probation departments reported that 10 juveniles were transferred to the adult system.

The adult-level disposition information in this section pertains to the 95 dispositions received in 2025 and examines adult-level dispositions for juvenile offenders by gender, age, race/ethnic group, offense, and disposition. The data were obtained from DOJ's Criminal History System via a statistical export of dispositions. If a person is arrested for multiple offenses, the export process selects only the most serious offense based on the severity of possible punishment. If there are multiple court dispositions, it then selects the most serious court disposition and the associated offenses. Please see *Understanding the Data* for more information.

APPENDICES

Appendix 1

Background

The Criminal Justice Statistics Center of DOJ began compiling data describing California's juvenile justice system in 1947. In 1969, DOJ developed the first computerized system for juvenile probation caseloads to collect information on juveniles who were supervised by probation departments or in detention facilities. The system was designed to track referrals within the juvenile probation system and to provide information on its progress through the probation and court processes from the time of referral to final disposition. The information collected links court and probation activities for a single referral.

In 1979, in an effort to upgrade the computerized data collection system, DOJ developed the JCPSS as a pilot study. Ten counties participated in the initial study, and, in 1980, the pilot system was implemented statewide.

From 1980 to 1989, the JCPSS collected, compiled, and reported statistical data on the administration of juvenile justice in California. The system collected individual records on delinquent juveniles who were referred to California probation departments. These records contained information about the juvenile's referral source, referral offense, pre-adjudication detention, probation, and court disposition, as well as current supervision status and changes in prior supervision status. During this period, transaction reports were submitted at the time a disposition was made or when supervision was terminated.

In 1990, the JCPSS was discontinued because of budget reductions.

In 1995, the Legislature passed Assembly Bill 488 (Chapter 803, Statutes of 1995), directing DOJ to reestablish the JCPSS. In June 1996, representatives from 14 probation departments and DOJ met to finalize the reporting standards and began system development. In January 1997,

several probation departments began submitting data to the JCPSS.

In 1999, the Legislative Analyst's Office (LAO) recommended that the Legislature withhold 50 percent of the Temporary Assistance to Needy Families (TANF) funds from probation departments that did not submit JCPSS data by March 2000. At that time, only 22 probation departments were submitting data to the JCPSS.

In 2000, the LAO again recommended that the Legislature withhold 50 percent of the TANF funds from probation departments that did not submit JCPSS data by March 2001. In May 2000, a permanent JCPSS Advisory Committee was established to improve county participation and to discuss legislative changes affecting the JCPSS; no funds were withheld.

In 2001, the Legislature directed DOJ, via Senate Bill 314 (Chapter 468, Statutes of 2001), to include in its annual juvenile justice report, statistics on the administrative actions taken by law enforcement agencies regarding juveniles whose cases were transferred to or directly adjudicated in adult criminal court. This legislation also prompted discussions on replacing the existing JCPSS software, provided to probation departments in 1996, with a web-enabled application. In 2002, DOJ developed the web-enabled JCPSS application, and county probation departments were connected to the DOJ network the same year.

In 2003, the JCPSS web-enabled application became operational. Probation departments received training, and they began to submit data to DOJ. Currently, 57 of California's 58 counties are connected to the web-enabled application, and all of those counties are submitting data. DOJ continues to work with Sierra County in order to achieve 100 percent participation.

During the Fiscal Year 2018-2019 budget deliberations, the Legislature discussed whether the JCPSS should be overhauled and whether DOJ should be required to lead and develop the modernization plan.

DOJ recognizes that there are many growing and evolving needs for complete criminal history information, for both juveniles and adults, to support the criminal justice community, the Legislature, research organizations, and other entities who are immediately concerned with the prevention or control of crime, the quality of criminal justice, or the custody or correction of offenders.

Chapter 337, Statutes of 2020 (Senate Bill 823) included language that made DOJ responsible for developing a JCPSS Replacement Plan. The Penal Code statute read: 13015. (a) The Department of Justice shall submit a plan for the replacement of the Juvenile Court and Probation Statistical System (JCPSS) with a modern database and

reporting system. The plan shall be submitted to the Assembly and Senate budget subcommittees on public safety, and the Assembly and Senate Public Safety Committees by January 1, 2023. (b) In devising the plan, department shall convene a working group consisting of key stakeholders and experts, including, but not limited to, representatives from the Juvenile Justice Data Working Group established within the Board of State and Community Corrections pursuant to Section 6032, agencies that are responsible for the collection and submission of juvenile justice data to the department, advocates with experience in the collection, analysis, and utilization of juvenile justice data in California, academic institutions or research organizations with experience in collecting, analyzing, or using juvenile justice data in California, and people directly impacted by the justice system. In conjunction with specified stakeholders as described in PC section 13015 (a), DOJ submitted the JCPSS replacement plan to the legislature in January 2023.

Appendix 2

California Code Sections

Welfare and Institutions Code section 285

All probation officers shall make periodic reports to the Attorney General at those times and in the manner prescribed by the Attorney General, provided that no names or social security numbers shall be transmitted regarding any proceeding under Section 300 or 601.

Penal Code section 13010

It shall be the duty of the department:

(a) To collect data necessary for the work of the department from all persons and agencies mentioned in Section 13020 and from any other appropriate source.

(b) To prepare and distribute to all those persons and agencies cards, forms, or electronic means used in reporting data to the department. The cards, forms, or electronic means may, in addition to other items, include items of information needed by federal bureaus or departments engaged in the development of national and uniform criminal statistics.

(c) To recommend the form and content of records that must be kept by those persons and agencies in order to ensure the correct reporting of data to the department.

(d) To instruct those persons and agencies in the installation, maintenance, and use of those records and in the reporting of data therefrom to the department.

(e) To process, tabulate, analyze, and interpret the data collected from those persons and agencies.

(f) To supply, at their request, to federal bureaus or departments engaged in the collection of national criminal statistics data they need from this state.

(g) To make available to the public, through the department's OpenJustice Web portal,

information relating to criminal statistics, to be updated at least once per year, and to present at other times as the Attorney General may approve reports on special aspects of criminal statistics. A sufficient number of copies of a downloadable summary of this information shall be annually prepared to enable the Attorney General to send a copy to the Governor and to all public officials in the state dealing with criminals and to distribute them generally in channels where they will add to the public enlightenment. This subdivision shall not be construed to require more frequent reporting by local agencies than what is required by any other law.

(h) To periodically review the requirements of units of government using criminal justice statistics, and to make recommendations for changes it deems necessary in the design of criminal justice statistics systems, including new techniques of collection and processing made possible by automation.

(i) To evaluate, on an annual basis, the progress of California's transition from summary crime reporting to incident-based crime reporting, in alignment with the federal National Incident-Based Reporting System, and report its findings to the Legislature annually through 2019, pursuant to Section 9795 of the Government Code.

Penal Code section 13010.5

(a) The department shall collect data pertaining to the juvenile justice system for criminal history and statistical purposes. This information shall serve to assist the department, through its bureau whose mission is to protect the rights of children, in complying with the reporting requirement of paragraphs (3) and (4) of subdivision (a) of Section 13012,

measuring the extent of juvenile delinquency, determining the need for, and effectiveness of, relevant legislation, and identifying long-term trends in juvenile delinquency. Any data collected pursuant to this section may include criminal history information that may be used by the department to comply with the requirements of Section 602.5 of the Welfare and Institutions Code.

(b) Statistical data collected pursuant to this section shall be made available to the public through the OpenJustice Web portal. The department may make available data collected pursuant to this section in the same manner as data collected pursuant to Section 13202.

Penal Code section 13012

(a) The information published on the OpenJustice Web portal pursuant to Section 13010 shall contain statistics showing all of the following:

- (1) The amount and the types of offenses known to the public authorities.
- (2) The personal and social characteristics of criminals and delinquents.
- (3) The administrative actions taken by law enforcement, judicial, penal, and correctional agencies or institutions, including those in the juvenile justice system, in dealing with criminals or delinquents.
- (4) The administrative actions taken by law enforcement, prosecutorial, judicial, penal, and correctional agencies or institutions, including those in the juvenile justice system, in dealing with minors who are the subject of a petition or hearing in the juvenile court to transfer their case to the jurisdiction of an adult criminal court or whose cases are directly filed or otherwise initiated in an adult criminal court.
- (5) (A) The total number of each of the following:
 - (i) Civilian complaints received by law enforcement agencies under Section 832.5.
 - (ii) Civilian complaints alleging criminal conduct of either a felony or a misdemeanor.

(iii) Civilian complaints alleging racial or identity profiling, as defined in subdivision (e) of Section 13519.4. These statistics shall be disaggregated by the specific type of racial or identity profiling alleged, including but not limited to, based on a consideration of race, color, ethnicity, national origin, religion, gender identity or expression, sexual orientation, or mental or physical disability.

(B) The statistics reported pursuant to this paragraph shall provide, for each category of complaint identified under subparagraph (A), the number of complaints within each of the following disposition categories:

- (i) "Sustained," which means that the investigation disclosed sufficient evidence to prove the truth of allegation in the complaint by preponderance of the evidence.
- (ii) "Exonerated," which means that the investigation clearly established that the actions of the personnel that formed the basis of the complaint are not a violation of law or agency policy.
- (iii) "Not sustained," which means that the investigation failed to disclose sufficient evidence to clearly prove or disprove the allegation in the complaint.
- (iv) "Unfounded," which means that the investigation clearly established that the allegation is not true.

(C) The reports under subparagraphs (A) and (B) shall be made available to the public and disaggregated for each individual law enforcement agency.

(b) The department shall give adequate interpretation of the statistics and present the information so that it may be of value in guiding the policies of the Legislature and of those in charge of the apprehension, prosecution, and treatment of criminals and delinquents, or those concerned with the prevention of crime and delinquency. This interpretation shall be presented in clear and informative formats on the OpenJustice Web portal. The Web portal shall also include statistics that are comparable

with national uniform criminal statistics published by federal bureaus or departments.

(c) Each year, on an annual basis, the Racial and Identity Profiling Advisory Board (RIPA), established pursuant to paragraph (1) of subdivision (j) of Section 13519.4, shall analyze the statistics reported pursuant to subparagraphs (A) and (B) of paragraph (5) of subdivision (a) of this section. RIPA's analysis of the complaints shall be incorporated into its annual report as required by paragraph (3) of subdivision (j) of Section 13519.4 and shall be published on the OpenJustice Web portal. The reports shall not disclose the identity of peace officers.

Penal Code section 13012.5

(a) The annual report published by the department under Section 13010 shall, in regard to the contents required by paragraph (4) of subdivision (a) of Section 13012, include the following statewide information:

(1) The annual number of fitness hearings held in the juvenile courts under Section 707 of the Welfare and Institutions Code, and the outcomes of those hearings including orders to remand to adult criminal court, cross-referenced with information about the age, gender, ethnicity, and offense of the minors whose cases are the subject of those fitness hearings.

(2) The annual number of minors whose cases are filed directly in adult criminal court under Sections 602.5 and 707 of the Welfare and Institutions Code, cross-referenced with information about the age, gender, ethnicity, and offense of the minors whose cases are filed directly to the adult criminal court.

(3) The outcomes of cases involving minors who are prosecuted in adult criminal courts, regardless of how adult court jurisdiction was initiated, including whether the minor was acquitted or convicted, or whether the case was dismissed and returned to juvenile court, including sentencing outcomes, cross-

referenced with the age, gender, ethnicity, and offense of the minors subject to these court actions.

(b) The department's annual report published under Section 13010 shall include the information described in paragraph (4) of subdivision (a) of Section 13012, as further delineated by this section, beginning with the report due on July 1, 2003, for the preceding calendar year.

Juvenile Justice Glossary

Caseload – The number of juveniles under the supervision or jurisdiction of a probation department, excluding courtesy supervision, but including juveniles on diversion, informal probation (Welfare and Institution Code (WIC) Sections (§§) 654 or 654.2), non-ward probation (WIC § 725(a)), or deferred entry of judgment (WIC § 790), and those who are wards of the juvenile court.

Closed at Intake – A referral that is closed by the probation department following an investigation of the circumstances and nature of the alleged offense. No further action is taken.

Deferred Entry of Judgment – A treatment program for first-time felony offenders aged 14 to 17 (WIC § 790).

Deferred Entry of Judgment Failure – A felony offender who fails the treatment program (WIC § 793).

Delinquent Act – An act committed by a juvenile for which an adult could be prosecuted in a criminal court.

Detention – The status of a juvenile immediately after arrest and prior to any court action.

Direct File in Adult Court – The filing of a juvenile case in a court of criminal jurisdiction (adult court) pursuant to WIC §§ 602(b) or 707(d). (In 2016, voters passed Proposition 57, which ended the process of direct filing in adult court for juveniles.)

Dismissed – A petition dismissed by the juvenile court with no further action taken.

Disposition – An action taken by the probation officer or juvenile court because of a referral.

Diversion – Any delivery or referral of a minor by the probation department to a public or private agency with which the city or county has an agreement to provide diversion services. Diversion services must meet the following criteria:

- 1) The probation department must have referred the minor and maintained responsibility for that minor's progress.
- 2) Placement and monitoring of the minor must have a beginning and ending date.

Diversion Dismissed – The successful completion of a diversion program.

Division of Juvenile Justice (DJJ) – The state entity that has jurisdiction over and maintains institutions as correctional schools for wards of the juvenile court and other persons committed from superior courts. (In July 2005, the California Youth Authority was consolidated with the California Department of Corrections and Rehabilitation and renamed the Division of Juvenile Justice.)

Incorrigible – Incapable of being corrected, reformed, amended, or improved. With respect to juvenile offenders, unmanageable by parents or guardians.

Informal Probation (WIC § 654) – Supervision of a minor, in lieu of filing a petition, for a period not to exceed six months. The supervision is based on a contractual agreement between a probation officer and a minor's parents or guardian under WIC § 654.

Informal Probation (WIC § 654.2) – Supervision of a minor, in lieu of declaring a minor a ward of the court, for a period not to exceed six months. The supervision is based on a contractual agreement between a court and a minor's parents or guardian. The period of supervision may be extended.

Non-Secure Facility – A facility where a juvenile is not physically restricted from leaving.

Non-Ward Probation – Probation grant, without wardship, from juvenile court for a specific time not to exceed six months (WIC § 725(a)).

Petition – The formal presentation to juvenile court of information related to a juvenile’s alleged offense (similar to a criminal complaint for an adult).

Population at Risk – That portion of the total population who, because of like characteristics to the specific study group, are considered “at risk.” For juveniles, all persons between ages 10 and 17 would constitute the at-risk population.

Private Facility – A facility operated by a private individual or group.

Public Facility – A facility operated by a governmental agency other than a county probation department.

Referral – A juvenile who is brought to the attention of the probation department for alleged behavior under WIC §§ 601 and 602.

Remand to Adult Court – A disposition resulting from a transfer hearing that finds a juvenile unfit for the juvenile system and transfers a juvenile to the adult system.

Reverse Remand – Occurs when a case is sent back to the juvenile system from the adult system.

Reverse Waiver for Sentencing – Occurs when the adult system sends a juvenile back to the juvenile system for sentencing.

Secure Facility – A facility where a juvenile is held behind a locked door, gate, or fence, or in which some person is responsible for physically preventing the juvenile’s escape or departure from the facility. Secure facility includes electronic monitoring.

Status Offenses – Acts that would not be classified as crimes if committed by adults.

STCF-SB823 – A secure track county level facility where a juvenile is held. This placement was added in 2021 as a result of Senate Bill 823, which closed the Division of Juvenile Justice on June 30, 2021.

Technical Violation – Occurs when a juvenile violates a condition of his or her probation but does not commit a new offense.

Traffic Court – A disposition indicating the case was transferred to the traffic court for processing.

Transfer – A disposition that transfers a juvenile to another county juvenile court or probation department.

Transfer Hearing – A hearing to determine whether the juvenile is a fit and proper subject to be dealt with under the juvenile court law. If the juvenile is found fit, adjudication remains in the juvenile court. If the juvenile is found unfit, adjudication is transferred to the adult court (WIC § 707). Formerly called a Fitness Hearing.

Wardship Probation – A probation grant in which a minor is declared a ward of the juvenile court and placed on formal probation.

WIC – Welfare and Institutions Code.

Acknowledgments

DOJ is mandated by statute to submit an annual *Juvenile Justice in California* report. The department extends its appreciation to all the probation departments and law enforcement agencies that provided complete and timely data. This report would not have been possible without their cooperation.
